

Abbey Primary School

Accessibility Plan 2015 - 2018

1 Introduction

Under the Equality Act 2010 schools should have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that 'schools cannot unlawfully orientate'. According to the Equality Act 2010 a person has a disability if:

- a) He/she has a physical or mental impairment
- b) The impairment has a substantial and long term adverse effect on the ability to carry out normal day to day activities.

The Accessibility Plan is a statutory document of the Department for Education's guidance on statutory policies for schools. The Plan must be reviewed every three years and approved by the Governing Body.

- 1) At Abbey we are committed to working together to provide an inspirational and exciting learning environment where all children can develop an enthusiasm for lifelong learning. We believe that children should feel happy, safe and valued so that they can develop a respectful, caring attitude towards each other and the environment. This plan has been developed through information from the Local Authority, school council, parents, staff and governors of the school. The intention is to provide a projected plan for a three year period ahead of the next review date.

- 2) The Accessibility Plan is structured to complement and support the school's equality objectives and will be published on the school website.

- 3) Abbey is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

- 4) The Accessibility Plan shows how access is to be improved for disabled pupils, staff and visitors to the school within a given timeframe and anticipating the need to make reasonable adjustments to accommodate their needs where practicable.

The Accessibility Plan contains relevant and timely actions to:-

- Increase access to the curriculum for pupils with a disability, expanding the curriculum as necessary to ensure that pupils with a disability are as equally prepared for life as are able bodied pupils. This covers teaching and learning and the wider curriculum of the school ie, after school clubs, school visits etc. It also covers the provision of specialist aids and equipment which may assist these pupils in accessing the curriculum.
- Improve and maintain access to the physical environment of the school adding specialist facilities as necessary - this covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe.

- Improve the delivery of written information to pupils, staff, parents and visitors with disabilities, for example, newsletters, pupils books etc, the information should be made available in various preferred formats within a reasonable timeframe.

5) This Accessibility Plan relates to the key aspects of the physical environment, curriculum and written information.

6) Whole school training will recognise the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010.

7) This Accessibility Plan should be read in conjunction with the following school policies, strategies and documents:

- Asset Management Plan
- Behaviour Policy
- Curriculum Policy
- Critical Incident Support Plan
- Equal Opportunities Policy
- Health and Safety Policy
- Equality Plan
- School Prospectus
- School Improvement Plan
- Special Educational Needs Policy
- SEND Information Report

- 8) The Accessibility Plan for physical accessibility relates to the Access Audit of the school, which remains the responsibility of the governing body. It may not be feasible to undertake all of the works during the life of this plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the on-going period.
- 9) Equality Impact Assessments will be undertaken as and when school policies are reviewed. The terms of reference for all governors' committees will include the need to consider Equality and Diversity issues as required by the Equality Act 2010.
- 10) The Accessibility Plan will be published on the school website.
- 11) The Accessibility Plan will be monitored through the Governor Finance and Premises Committee.
- 12) The school will work in partnership with the Local Authority in developing and implementing the Accessibility Plan.
- 13) The Accessibility Plan may be monitored by Ofsted during inspection processes in relation to Schedule 10 of the Equality Act 2010.

Date; Summer 2015

Aims and Objectives

Our aims are:

- Increase access to the curriculum for pupils with a disability
- Improve and maintain access to the physical environment

- Improve the delivery of written information to pupils

Current good practice

We aim to ask about any disability or health conditions in early communications with new parents and carers. For parents and carers of children already at the school, we collect information on disability as part of information gathering using contact forms and these are reviewed yearly , but may be updated by parents if any issues arise.

Physical Environment

Disabled pupils participate in extra-curricular activities. Some aspects of these activities may present particular challenges eg, lunch and break times, after school clubs, school trips for pupils with social/emotional difficulties, physical needs and medical conditions. The school is accessible for all disabled pupils.

Curriculum

The curriculum is fully accessible to disabled pupils. Some areas of the curriculum present challenges for disabled pupils eg, PE, technology etc. Other issues may affect the participation of disabled pupils eg, peer relationships, administration of medicines, provision of personal care, the presence or lack of role models or images of disabled role models.

Information

Different forms of communication are available to enable all disabled pupils to express their views and to hear the views of others. Access to information is planned with a range of different formats for disabled pupils, parents and staff. This is achieved by the use of colour overlays, newsheet printed on coloured paper and the use of a sign language interpreter.

Access Audit

- The school is a single storey building with standard sized corridors.
- Emergency signage and fire exits routes are clearly marked.
- Every classroom has access points to outdoors.
- There are double doors onto the playground accessible through hall
- There is one designated disabled parking bay on the car park.

Management, coordination and implementation

- We will consult with experts when new situations regarding pupils with disabilities are experienced.
- The *Governors* and *Senior Leadership Team* will work closely with the *Local Authority*.

Action Plan

Aim 1 - To increase the extent to which disabled pupils can participate in the school curriculum.

Our key objective is to reduce and eliminate barriers to access to the curriculum and to ensure full participation in the school community for pupils, and prospective pupils, with a disability.

Short term plan

Our key objective is to reduce and eliminate barriers to access to the curriculum and to ensure full participation in the school community for pupils, and prospective pupils, with a disability.
